

## Vermont Bond Bank

## 2023 VERMONT BOND BANK FINANCIAL MEDIANS

Released October 10, 2023

## 2023 Financial Median Observations*

- The flood of summer 2023 occurred against a backdrop of improving financial ratios within local government and enterprise systems. Potential impacts will not be observed until the 2024 medians are released
- New governmental activities population cohorts demonstrate expected variability in levels of debt but show consistent debt service budgetary burdens that are lower vs national medians
- Vermont local government, as observed by the Bond Bank, continues to increase resilience
- Medians related to fund balances grew year over year to the highest level in the Bond Bank's four-year observation period
- Cash levels remained high and intergovernmental revenue increased relative to revenue
- Debt levels and associated payments continue to decrease among governmental activities, water and sewer enterprises, and schools districts
- Median levels of long-term debt outstanding declined in all categories
- Debt service continues to account for a smaller portion of annual expenses
- Median pay off levels indicate that half of local governments observed will have over 85 percent of debt retired in the next 10 years

## Median Methodology \& Related Limitations

- Financial statement results are regularly entered into database while reviewing loan applications and conducting annual portfolio review
- Entries over last 18 months selected to be included in medians
- As a result, medians changed and will change over time as more recent entries are included
- Only one entry per entity for governmental activities but multiple enterprises (ex. Water and sewer are separate entries) may be used to calculate median; most recent statement of entity used in median calculation
- Not all borrowers within portfolio regularly have third party financial audits and comparable data is sometimes incomplete
- Assigned and unassigned fund balances were combined in 2023
- Moody's medians for Governmental Activities were not updated as a change to methodology of 2023 Moody's Cities and Counties medians eliminated direct comparability
- Database is evolving and new categories of data are added over time

## Shortcomings of Debt Benchmarking

Medians may or may not represent an appropriate peer group

Medians may reflect unique circumstances or characteristics of Bond Bank borrowers

Medians provide starting point for affordability analysis but are silent on community values

Medians do not help prioritize or inform the type of projects that are financed with debt

## Governmental Activities Ratios \& Definitions

|  |  | Median | Moody's | Median* |
| :---: | :---: | :---: | :---: | :---: |
| Category | Definition (Adopted from Moody's Investor Services Definitions) | Bond Bank | All Cities | "A" Rated Pop < 10k |
| Unassigned GF Balance as \% of Revenue | Unassigned general fund balance divided by total general fund revenues | 16.5\% | 41.0\% | 45.9\% |
| Cash as \% of Revenue | Cash and investments for the general fund, divided by total general fund revenues | 61.2\% | 45.5\% | 48.4\% |
| Total Long-Term Debt | Bonded debt and similar obligations reported for Governmental Activities only (i.e. no enterprise or business type activities); debt associated with pending loan applications included | $\$ 775$ <br> thousand | \$21.25 million | \$5.76 <br> million |
| Debt Service as \% of Operating Expenses | Debt service expenditures (principal and interest) for all operating funds combined divided by operating expenditures (including expenditure of debt service funds); debt service associated with pending loan applications included | 5.5\% | 9.0\% | 10.5\% |
| Debt Service as \% of Revenue | Debt service expenditures (principal and interest) for all operating funds (including debt service funds) combined divided by operating revenues including expenditure of debt service funds; debt service associated with pending loan applications included | 5.4\% | --- | --- |
| Long Term Debt to Revenue | Long-term debt (including current portion and capital leases) divided operating revenues (expressed as a percent) | 40.8\% | 80.0\% | 110.0\% |
| 10 Year Debt Payoff | Amount of principal that will be amortized in next ten years divided by total long-term debt (debt associated with pending loan applications not included) | 85.4\% | --- | --- |
| Long Term Debt to Full Value (Grand List) | Long term debt outstanding (including capital leases) divided by full value (actual value of Grand List) for the most recent year available (expressed as a percent) | 0.23\% | 1.10\% | 1.50\% |
| Government <br> Activity LTD per Capita | Total long-term debt (including capital leases) divided by population for the most recent year available | \$371 | --- | --- |
| Capital Asset <br> Depreciation | Ratio of Accumulated Depreciation to Gross Depreciable Assets (excluding land and construction in progress). A ratio above $65 \%$ indicates reinvestment in capital assets is lagging behind depreciation, signaling the likelihood (necessity) of future debt issuance. | 42.4\% | 49.7\% | --- |
