Pooled Loan Program Highlights

Advantages

- Bond Bank maintains AA+ rating with low interest rates passed along to borrowers
- Bond Bank provides technical expertise in organizing, structuring and pricing bonds
- Economies of scale in accessing the capital markets = equitable, low-cost access
- No upfront or on-going fees
- Streamlined process from application to receipt of funds
- Active market monitoring for refinancing opportunities with savings passed on to borrowers
- Term of financing and amortization will always match (i.e. no "put" or balloon maturity)
- No on-going risk of "catch-up" payments should tax rates change (investors not borrowers own tax risk)

Considerations

- Must comply with rules for tax-exemption (like all tax-exempt loans) (unless an exception is made)
- Availability of funding subject to Bond Bank schedule (typically winter and summer pools)
- Refinancing of redemption subject to Bond Bank approval
- Semi-annual payment of interest on May 1st and November 1st
- Annual payment of principal on November 1st
- Funds must be requisitioned from the Disbursement Agent (typically arrive in < 24 hours)

Term of financing and useful life of asset financed must align
